

ProWash 3

MORE CONNECTED. MORE PRODUCTIVE.

Clean

Patented mechanical jetting with all-new power dry capability

Smart

Cloud-connected for automatic job handoff from print to cure

Refined

Dedicated drying hardware and sensors for better quality of life

The Award Winner, Reimagined

ProWash S cleans and dries your 3D printed dental models in just 9 minutes. Designed to be fast, reliable, and connected, SprintRay raises the bar with the best cleaning system in 3D printing.

Solvent, Managed

Guided maintenance helps maximize and recycle IPA

Big Screen, Big Power

A 5" touchscreen helps streamline your everyday workflow

Wash Your Way

Create custom cleaning cycles for maximum workflow control

Automatic Updates

Receive software and wash profile updates automatically

Cleaner, Faster

Optimized wash profiles and motor dynamics improve wash efficiency for all types of resin.

3X Drying Performance

A drying fan channels air directly into the wash chamber to prepare parts for curing.

Three Devices, One Job

When you start a print job, you're activating a full production ecosystem that monitors progress and keeps track of finishing instructions. With SprintRay Cloud, your devices automatically transfer job information from start to finish. That's frictionless.
